

EVALUATION LICENSE AGREEMENT
20210714-ADRV904X-CTELA

This Evaluation License Agreement (the "Agreement") is a legal agreement between Analog Devices, Inc., a Massachusetts corporation, with its principal office at One Analog Way, Wilmington, MA 01887, U.S.A. ("Analog Devices") and you (personally or on behalf of your employer, as applicable) ("Licensee") for the software and related documentation that accompanies this Agreement (the "Licensed Software"). YOU AGREE THAT YOU ARE BOUND BY THE TERMS AND CONDITIONS OF THIS AGREEMENT BY DOWNLOADING, INSTALLING, COPYING OR USING THE SOFTWARE. IF YOU DO NOT AGREE, DO NOT DOWNLOAD, INSTALL, COPY OR USE THE SOFTWARE. YOU REPRESENT THAT YOU ARE OVER THE AGE OF 18 AND HAVE THE CAPACITY AND AUTHORITY TO BIND YOURSELF OR YOUR EMPLOYER, AS APPLICABLE, TO THE TERMS OF THIS AGREEMENT.

The Licensed Software consists of (a) embedded software (including firmware) designed to operate in an Analog Devices processor / product ("Embedded Software") and/or (b) application software designed to run on personal computers ("PC Software").

1. License. Subject to the terms and conditions of this Agreement, Analog Devices grants to Licensee a non-exclusive, non-transferable, non-sublicensable license to:

(a) internally use and copy the Embedded Software (and modify the Embedded Software if it is provided in source code form) for the sole purpose of evaluating the use of Embedded Software with Analog Devices' processors / products; and

(b) internally use and copy the PC Software for the sole purpose of evaluating use of the PC Software with Analog Devices' processors / products. Such evaluation may include configuring, monitoring and controlling Analog Devices processors / products solely in order to evaluate use of the PC Software with Analog Devices' processors / products.

2. Restrictions and Conditions. The license granted in Section 1 is conditioned on full compliance with this Section 2 and the other obligations under this Agreement.

(a) Licensee shall not modify, reverse engineer, decompile, disassemble or create derivative works of the Licensed Software except and only to the extent that such activity is expressly permitted (i) pursuant to Section 1 above or (ii) by applicable law notwithstanding this limitation.

(b) In no event shall Licensee (i) sublicense, rent, lease, permit time-sharing or otherwise make available, transfer, deliver, disclose, or distribute the Licensed Software to any third party or (ii) use the Licensed Software for any commercial purpose, including, without limitation, the manufacture of products intended for commercial sale or the development of any other software, application, product or service for commercial release.

(c) The Licensed Software may not be used with any processors / products other than Analog Devices' processors / products or for any other purpose.

(d) Licensee shall not engage in any activities with respect to the Licensed Software that would cause the Licensed Software, in whole or in part to become subject to any terms of an Excluded License. An "Excluded License" means any license, including licenses for "open source" code (such as defined by the Free Software Foundation), that requires as a condition of use, modification, and/or distribution of the software subject to such Excluded License, that such software or other software combined and/or distributed with such software be (i) disclosed or distributed in source code form; (ii) licensed for the purpose of making derivative works; or (iii) redistributable at no charge. Examples of Excluded Licenses include, without limitation, the GNU General Public License, the GNU Lesser General Public License, the Mozilla Public License and the Microsoft Reciprocal License. The restrictions of this section apply regardless of whether the Licensed Software is intended or designed to run in an environment that includes software under an Excluded License. Any license, agreement or other document issued, entered into or granted by Licensee that purports to apply any Excluded License to any portion of the Licensed Software shall be null and void with regard to the Licensed Software.

(e) If Analog Devices elects to make any update, upgrade or new version of the Licensed Software ("Updates") available to Licensee, such Updates shall be deemed to be the Licensed Software

under this Agreement. If requested by Analog Devices, Licensee shall only use the latest version of the Licensed Software (including Updates). Analog Devices shall have no obligation to provide support or Updates of any kind.

(f) In no event shall Licensee remove any copyright or other intellectual property notice or other legend contained on or in copies of the Licensed Software or displayed by the Licensed Software.

(g) To the extent there are any specifications and/or user manuals for the Licensed Software, as an additional restriction under this Agreement (and in no way expanding any rights under this Agreement), the Licensed Software may not be used in any manner that is inconsistent with such specifications and/or user manuals. For the avoidance of doubt, Licensee may not distribute the Licensed Software under any circumstances.

3. Ownership. Licensee acknowledges and agrees that Analog Devices and its licensors and suppliers (as applicable) retain all right, title and interest in the Licensed Software and derivative works thereof, including all related patent, copyright and other intellectual property rights in any of the foregoing, and that Licensee's rights to the Licensed Software are limited to those expressly provided for in Section 1 above (subject to the conditions and restrictions in this Section 3). Licensee shall not take any action inconsistent with such title and ownership. Any use of the Licensed Software for any purpose other than as expressly licensed hereunder is outside the scope of this Agreement. All rights not expressly granted in this Agreement are reserved to Analog Devices. It is agreed that because of the proprietary nature of the Licensed Software, Analog Devices' remedies at law for a breach by the Licensee of its obligations under this Agreement or for use of the Licensed Software beyond the scope of the license granted herein will be inadequate and that Analog Devices will, in the event of such breach, be entitled to equitable relief, including injunctive relief, without the posting of any bond, in addition to all other remedies provided under this Agreement or available at law.

4. Publicity. Notwithstanding anything in this Agreement, Licensee may not use any trademark or trade name of Analog Devices or make any public announcement regarding the existence of this Agreement without Analog Devices' prior written consent. Licensee may not publish or provide the results of any benchmark or comparison tests run on the Licensed Software to any third party without the prior written consent of Analog Devices.

5. Feedback. Licensee may from time to time provide modifications, enhancements, improvements, code, suggestions, ideas, comments or other feedback ("Feedback") to Analog Devices related to the Licensed Software. Licensee agrees that all Feedback is and shall be given entirely voluntarily. To the extent Licensee provides such Feedback, Licensee (on behalf of itself and its affiliates) hereby grants to Analog Devices and its affiliates a non-exclusive, irrevocable, perpetual, worldwide, royalty-free, transferable license, with the right to sublicense, under Licensee's (and its affiliates') intellectual property, to use and disclose Feedback in any manner Analog Devices or its affiliates choose, including, without limitation, displaying, performing, copying, making, having made, using, selling and otherwise disposing of Analog Devices' and its affiliates and their respective licensees' software, applications, products or services embodying such Feedback in any manner and via any media, without reference to its source or other obligation to Licensee and even if the Feedback is designated as confidential.

6. Confidentiality.

(a) The Licensed Software and any accompanying documentation, and any other information which a reasonable person would understand is of a confidential or proprietary nature, shall be deemed to be "Confidential Information" of Analog Devices whether or not it is identified in writing as "Confidential." Any other materials or information identified by Analog Devices as "Confidential" or with any similar notice shall also be treated as Confidential Information of Analog Devices under this Agreement. Analog Devices Confidential Information shall include, without limitation, software and information of Analog Devices' affiliates, suppliers and licensors.

(b) Licensee shall protect the confidentiality of Analog Devices Confidential Information. Without limitation, Licensee agrees: (i) not to disclose or otherwise permit any other person or entity access to, in any manner, Confidential Information, or any part thereof in any form whatsoever; except that

such disclosure or access shall be permitted to an employee of Licensee (x) requiring access to Confidential Information in the course of his or her employment in connection with this Agreement, (y) who is subject to written confidentiality obligations at least as protective with respect to Confidential Information as the terms and conditions in this Agreement and (z) who complies with all other applicable provisions of this Agreement; (ii) to notify Analog Devices promptly and in writing of the circumstances surrounding any suspected possession, use or knowledge of Confidential Information other than those authorized by this Agreement; and (iii) not to use Confidential Information for any purpose other than as explicitly set forth herein.

(c) Nothing in this Section 6 shall restrict Licensee with respect to information if such information: (i) was rightfully possessed by Licensee before it was received from Analog Devices; (ii) is independently developed by Licensee without reference to Confidential Information; (iii) is subsequently furnished to Licensee by a third party not under any obligation of confidentiality with respect to such information, and without restrictions on use or disclosure; or (iv) is or becomes public or available to the general public otherwise than through any act or default of Licensee.

(d) Because the unauthorized use, transfer or dissemination of any Confidential Information may diminish substantially the value of such materials and may irreparably harm Analog Devices, if Licensee breaches the provisions of this Section 6, Analog Devices shall, without limiting its other rights or remedies, be entitled to equitable relief, including but not limited to injunctive relief.

7. Third Party Software. The Licensed Software may be accompanied by or include software made available by one or more third parties ("Third Party Software"). Each portion of Third Party Software is subject to its own separate software license terms and conditions ("Third Party Licenses"). The Third Party Licenses for Third Party Software delivered with the Licensed Software may be set forth or identified (by URL or otherwise) in (i) Appendix A to this Agreement (if any), (ii) the applicable software header or footer text, (iii) a text file located in the directory of the applicable Third Party Software component, (iv) software documentation, (v) in connection with any Update of the Licensed Software or its documentation, and/or (vi) such other location customarily used for licensing terms. The use of each portion of Third Party Software is subject to the Third Party Licenses, and Licensee agrees that Licensee's use of any Third Party Software is bound by the applicable Third Party License. Licensee agrees to review and comply with all applicable Third Party Licenses prior to any use or distribution of any Third Party Software. Third Party Software is provided on an "as is" basis without any representation, warranty or liability of any kind. Analog Devices (including its licensors and suppliers) shall have no liability or responsibility for the operation or performance of the Third Party Software and shall not be liable for any damages, costs, or expenses, direct or indirect, arising out of the performance or failure to perform of the Third Party Software. Analog Devices (including its licensors and suppliers) shall be entitled to the benefit of any and all limitations of liability and disclaimers of warranties contained in the Third Party Licenses.

With respect to any Third Party Software subject to the GNU General Public License Version 2 ("GPL2") distributed by Analog Devices in object code or executable form and not distributed in source code form (to the extent such distribution is required by GPL2) in connection with this Agreement, Analog Devices hereby offers, for a period of three years from the date of Licensee's receipt of the applicable Third Party Software, to give any third party, for a charge no more than the cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed on a medium customarily used for software interchange.

In the event that Third Party Software has only been provided to Licensee in object code form under this Agreement, and the Third Party License requires distribution of the corresponding source code, Licensee may contact software.licensing@analog.com regarding receiving a copy of such source code.

8. Required Consents; Indemnification. Licensee acknowledges that use of the Licensed Software may require Licensee to obtain licenses to intellectual property or other consents from one or more third parties. Licensee is responsible for obtaining any and all such required licenses or consents

regarding the Licensed Software and for the performance of any and all required tests or analysis necessary or appropriate for the determination of the suitability of the Licensed Software for its purposes. Without limitation, Licensee is responsible for obtaining, maintaining and complying with third party licenses in connection with any Industry Standard hereafter defined below (including related intellectual property rights) applicable to the Licensed Software. "Industry Standard" means any standard, protocol or specification that is promulgated by any standards development organization, consortium, trade association, special interest group, or like group or entity, for the purpose of widespread adoption. By way of non-limiting examples, industry standards and specifications may include without limitation technical specifications promulgated by organizations such as the International Telecommunications Union (ITU), International Standards Organization (ISO), International Electrotechnical Commission (IEC), 3'd Generation Partnership Project (3GPP), Moving Picture Experts Group (MPEG), World Wide Web Consortium (W3C), Internet Engineering Task Force (IETF), OpenFabrics Alliance, Open Mobile Alliance, UPnP Forum, USB Implementers Forum, Institute of Electrical and Electronics Engineers (IEEE), American National Standards Institute (ANSI), Telecommunications Industry Association (TIA), AUTomotive Open System Architecture (AUTOSAR), High-bandwidth Digital Content Protection (HDCP), High-Definition Multimedia Interface (HDMI), Digital Transmission Content Protection (DTCP), Digital Transmission Licensing Administrator (DTLA), and Ethernet POWERLINK Standardization Group (EPG). Licensee shall defend, indemnify and hold Analog Devices, its affiliates, licensors and suppliers, and their respective officers, directors, employees and agents (each an "Indemnified Party") harmless from and against any damages, fines, penalties, assessments, liabilities, costs and expenses (including reasonable attorneys' fees and court costs) in the event that any claim is brought against an Indemnified Party arising or alleged to arise directly or indirectly from (i) Licensee's possession, use, distribution or other exploitation of the Licensed Software or Third Party Software, or (ii) Licensee's failure to obtain any required license or consent with respect to the Licensed Software or Third Party Software.

9. Term and Termination.

(a) The term of this Agreement is for a period of six (6) months commencing on the date the Licensed Software is first received by Licensee from Analog Devices or its authorized distributor ("Term"). This Agreement is effective until the expiration of the Term or until terminated in accordance with this Section. Either party may terminate this Agreement at any time by giving written notice to the other party. This Agreement shall immediately automatically terminate in the event of any failure by Licensee to comply with any term or condition of the Agreement. In the event of termination or expiration (i) all licenses granted to Licensee immediately expire and (ii) Licensee must immediately cease using the Licensed Software and permanently delete all copies of the Licensed Software and all of its component parts, including any backup or archival copies. The provisions of Sections 2 through 19 shall survive any termination or expiration of this Agreement according to their terms.

(b) THE LICENSED SOFTWARE MAY BE TIME-SENSITIVE AND MAY NOT FUNCTION UPON EXPIRATION OF TERM. NOTICE OF EXPIRATION WILL NOT BE GIVEN, SO LICENSEE NEEDS TO PLAN FOR THE EXPIRATION DATE. In order to protect against unauthorized use of the Licensed Software in commercial applications, Analog Devices may have integrated copy protection into the evaluation software. Typical protection may include a time-out or periodic beep on audio software or a watermark on imaging software.

10. DISCLAIMER OF WARRANTIES.

THE LICENSED SOFTWARE, THIRD PARTY SOFTWARE AND ANY SUPPORT ARE PROVIDED "AS IS" WITHOUT REPRESENTATION OR WARRANTY OF ANY KIND, AND ANALOG DEVICES, FOR ITSELF AND ITS AFFILIATES, HEREBY DISCLAIMS ALL REPRESENTATIONS AND WARRANTIES, WHETHER EXPRESS OR IMPLIED, ORAL OR WRITTEN, WITH RESPECT TO THE LICENSED SOFTWARE AND THIRD PARTY SOFTWARE AND ANY SUPPORT, INCLUDING, BUT NOT LIMITED TO, ANY EXPRESS OR IMPLIED WARRANTIES OF MERCHANTABILITY; FITNESS FOR ANY PARTICULAR PURPOSE; QUALITY AND ACCURACY OF INFORMATIONAL CONTENT; NON-INFRINGEMENT; QUIET ENJOYMENT; AND TITLE. LICENSEE AGREES THAT ANY EFFORTS BY ANALOG DEVICES

OR ITS AFFILIATES TO MODIFY OR UPDATE THE LICENSED SOFTWARE OR THIRD PARTY SOFTWARE OR PROVIDE SUPPORT SHALL NOT BE DEEMED A WAIVER OF THESE LIMITATIONS, AND THAT ANY ANALOG DEVICES WARRANTIES SHALL NOT BE DEEMED TO HAVE FAILED OF THEIR ESSENTIAL PURPOSE.

11. Limitation of Liability.

(a) TO THE MAXIMUM EXTENT PERMITTED BY LAW, ANALOG DEVICES (INCLUDING ITS AFFILIATES) SHALL NOT BE LIABLE FOR ANY DAMAGES ARISING FROM OR RELATED TO THE LICENSED SOFTWARE, THIRD PARTY SOFTWARE, THEIR USE OR ANY RELATED INFORMATION AND/OR SERVICES, INCLUDING BUT NOT LIMITED TO ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, EXEMPLARY, CONSEQUENTIAL OR ANALOGOUS DAMAGES (INCLUDING WITHOUT LIMITATION ANY DAMAGES RESULTING FROM LOSS OF USE, DATA, REVENUE, PROFITS, OR SAVINGS, COMPUTER DAMAGE, INTERRUPTION OF BUSINESS, OR ANY OTHER CAUSE), UNDER ANY LEGAL THEORY (INCLUDING WITHOUT LIMITATION CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT OR PRODUCT LIABILITY), EVEN IF IT HAS BEEN INFORMED OF THE POSSIBILITY OF SUCH DAMAGES.

(b) IN NO EVENT SHALL ANALOG DEVICES' CUMULATIVE LIABILITY FOR DAMAGES TO LICENSEE FOR ANY AND ALL CAUSES WHATSOEVER, REGARDLESS OF THE FORM OF ANY CLAIMS OR ACTIONS, EXCEED ONE HUNDRED U.S. DOLLARS (\$100.00 U.S.). ANALOG DEVICES' AFFILIATES, LICENSORS AND SUPPLIERS SHALL HAVE NO LIABILITY WHATSOEVER UNDER THIS AGREEMENT OR IN CONNECTION WITH THE LICENSED SOFTWARE OR ITS USE.

(c) Some jurisdictions do not permit the exclusion or limitation of liability for consequential, incidental or other damages, and, as such, some portion of the above limitation may not apply to Licensee. In such jurisdictions, Analog Devices' liability is limited to the greatest extent permitted by law.

12. Choice of Law. This Agreement and any dispute related to the Licensed Software shall be governed by the laws of the Commonwealth of Massachusetts, United States of America, without reference to its principles of conflicts of laws, and, as to matters affecting copyrights, trademarks and patents, in addition, by applicable United States federal law. The parties agree that the jurisdiction and venue of any action with respect to this Agreement shall be in a court of competent subject matter jurisdiction located in Boston, Massachusetts, and each of the parties hereby agrees to submit itself to the exclusive jurisdiction and venue of such courts for the purpose of any such action, except that Analog Devices may seek equitable (including injunctive) relief and enforce judgements in any venue of its choosing. Licensee hereby submits to personal jurisdiction in such courts. The parties hereto specifically exclude the United Nations Convention on Contracts for the International Sale of Goods and the Uniform Computer Information Transactions Act from this Agreement. The parties hereto waive any statute, law, or regulation that might provide an alternative law or forum or to have this Agreement written in any language other than English.

13. U.S. Government Restricted Rights. If the Licensed Software or documentation provided by Analog Devices or its suppliers is procured by or on behalf of the United States Government, the Government agrees that such software or documentation is "commercial computer software" or "commercial computer software documentation" and that absent a written agreement to the contrary, the Government's rights with respect to such Licensed Software or documentation are limited by the terms of this Agreement, pursuant to FAR § 12.212(a) and/or DFARS § 227.7202-1(a), as applicable.

14. Export. Licensee shall only use the Licensed Software in compliance with all applicable laws and regulations, including without limitation export control laws. Licensee agrees that Licensee will not directly or indirectly export the Licensed Software to another country except in full compliance with all applicable United States Federal Laws and Regulations and other laws and regulations relating to exports and imports. Licensee will not export/re-export, directly or indirectly, any software, information or technical data acquired under this Agreement or the "direct product" thereof to any country for which the United States Government or any agency thereof, at the time

of export, requires an export license or other governmental approval, without first obtaining such license or approval. The term "direct product" as used herein means the immediate product (including processes and services) produced directly by the use of the technical data or information. In addition to the above, the Licensed Software and/or any "direct product" thereof, may not be used by, or exported, transferred or re-exported to (i) any U.S. or U.N. or EU-sanctioned or embargoed country, or to nationals or residents of such countries; (ii) any person, entity, organization, or other party identified on the U.S. Department of Treasury's lists of "Specially Designated Nationals and Blocked Persons" (iii) any associations, individuals, companies, entities, organizations found in the U.S. Department of Commerce's Table of Denial Orders or Entity List, as published and revised from time to time (collectively known as the "Denied Parties List" or "Prohibited Parties List"); and/or (iv) any unauthorized or prohibited end-user engaged in any prohibited activities related to weapons of mass destruction, including without limitation, activities related to the design, development, production or use of nuclear weapons, materials, or facilities, missile or the support of missile projects, and chemical or biological weapons. Licensee understands that the foregoing obligations are legal requirements and agree that they shall survive any expiration or termination of this Agreement.

15. Compliance with Laws; Taxes. Licensee shall comply with all laws, legislation, rules, regulations, governmental requirements and industry standards with respect to the Licensed Software, and the performance by Licensee of its obligations hereunder, existing in any applicable jurisdiction. In the event that this Agreement is required to be registered with any governmental authority, Licensee shall notify Analog Devices in writing and cause such registration to be made and shall bear any expense or tax payable in respect thereof. Licensee shall bear any and all expenses and pay any and all taxes that may be payable in relation to this Agreement.

16. Assignment. This Agreement is personal to Licensee and Licensee may not transfer, sublicense, lease, rent, or assign its rights under this Agreement, and any such attempt shall be null and void. Analog Devices may assign, transfer, or sublicense this Agreement or any rights or obligations hereunder at any time in its sole discretion.

17. Waiver; Modification; Severability. No waiver, consent, modification or change of terms of this Agreement shall bind either party unless in writing signed by both parties, and then such waiver, consent, modification or change shall be effective only in the specific instance and for the specific purpose given. If any provision of this Agreement is unenforceable, such provision shall be enforced to the extent possible under applicable law, and the remaining provisions will remain in effect.

18. Audit. Analog Devices shall have the right upon ten (10) days prior written notice to audit Licensee's compliance with the terms of this Agreement during normal business hours. In connection with such audit, Analog Devices shall have access to all reasonably requested documents, equipment, information and personnel. If requested by Analog Devices, within ten business days of such request, Licensee shall either (i) certify in writing that Licensee is fully compliant with this Agreement or (ii) deliver a notice in writing stating all of the reasons why Licensee is not fully compliant.

19. Entire Agreement. This Agreement constitutes the entire, final, and complete agreement between the parties hereto relevant to the subject matter hereof, and supersedes any and all other agreements, either oral or in writing, between the parties with respect to the subject matter of this Agreement. Any term or condition incorporated in Licensee's purchase order(s) or any other document provided by Licensee to Analog Devices which is in any way different from, inconsistent with or in addition to the terms and conditions set forth herein shall be of no effect, shall not apply to the licensing of the Licensed Software, and shall not become a part of a contract between the parties or be binding upon Analog Devices. Analog Devices' failure to object to terms contained in any communication from Licensee shall not be an acceptance of such terms or a waiver of the terms set forth in this Agreement. If, for any reason, any provision of this Agreement is held invalid, such invalidity shall not affect the remainder of this Agreement, and this Agreement shall continue

in force and effect to the full extent allowed by law. For the avoidance of doubt, all the Licensed Software under this Agreement is subject to the terms and conditions of this Agreement and not any agreement or terms for purchase of Analog Devices products, even if the Licensed Software is delivered with such products.

MICROSOFT SOFTWARE LICENSE TERMS

MICROSOFT AZURE RTOS

Shape

These license terms are an agreement between you and Microsoft Corporation (or one of its affiliates). They apply to the software named above and any Microsoft services or software updates (except to the extent such services or updates are accompanied by new or additional terms, in which case those different terms apply prospectively and do not alter your or Microsoft's rights relating to pre-updated software or services). IF YOU COMPLY WITH THESE LICENSE TERMS, YOU HAVE THE RIGHTS BELOW. BY USING THE SOFTWARE, YOU ACCEPT THESE TERMS.

1. INSTALLATION AND USE RIGHTS.

a) General. You may install and use the software and the included Microsoft applications solely for internal development, testing and evaluation purposes. Any distribution or production use requires a separate license as set forth in Section 2.

b) Contributions. Microsoft welcomes contributions to this software. In the event that you make a contribution to this software you will be required to agree to a Contributor License Agreement (CLA) declaring that you have the right to, and actually do, grant Microsoft the rights to use your contribution. For details, visit <https://cla.microsoft.com>.

c) Included Microsoft Applications. The software includes other Microsoft applications which are governed by the licenses embedded in or made available with those applications.

d) Third Party Components. The software may include third party components with separate legal notices or governed by other agreements, as may be described within the software or in the ThirdPartyNotices file(s) accompanying the software.

e) Competitive Benchmarking. If you are a direct competitor, and you access or use the software for purposes of competitive benchmarking, analysis, or intelligence gathering, you waive as against Microsoft, its subsidiaries, and its affiliated companies (including prospectively) any competitive use, access, and benchmarking test restrictions in the terms governing your software to the extent your terms of use are, or purport to be, more restrictive than Microsoft's terms. If you do not waive any such purported restrictions in the terms governing your software, you are not allowed to access or use this software, and will not do so.

2. DISTRIBUTION AND PRODUCTION USE. If you have obtained and/or are developing on microprocessor(s) and/or microcontroller(s) ("hardware") listed in the file named "LICENSED-HARDWARE.txt" included in the repository and/or distributed with the software you have the following rights in and to the software solely when used in combination with the hardware. In the event hardware is not listed in the LICENSED-HARDWARE.txt file, you do not have the rights in this Section 2.

a) Distribution and Production Use Rights.

i. You may use the software in production (e.g. program the modified or unmodified software to devices you own or control) and distribute (i.e. make available to third parties) the modified or unmodified binary image produced from this code.

ii. You may permit your device distributors or developers to copy and distribute the binary image as programmed or to be programmed to your devices.

iii. You may redistribute the unmodified or modified source to your device distributors or developers. Modifications must be clearly marked. Any redistribution in source code form must contain this license and any other licenses that accompany the software.

b) Requirements. For any code you distribute, you must:

i. when distributed in binary form, except as embedded in a device, include with such distribution the terms of this agreement;

ii. when distributed in source code form to distributors or developers of your devices, include with such distribution the terms of this agreement; and

iii. indemnify, defend and hold harmless Microsoft from any claims, including attorneys' fees, related to the distribution or use of your devices, except to the extent that any claim is based solely on the unmodified software.

c) Restrictions. You may not:

i. use or modify the software to create a competing real time operating system software;

ii. remove any copyright notices or licenses contained in the software;

iii. use Microsoft's trademarks or trade dress in your application in any way that suggests your device or application comes from or is endorsed by Microsoft;

iv. transfer individual components, specific libraries, classes, functions or code fragments of the software separately for purposes unrelated to the software; or

v. use or distribute the software in any way that would subject the software or Microsoft's intellectual property or technology to any other license terms.

3. SCOPE OF LICENSE. The software is licensed, not sold. Microsoft reserves all other rights. Unless applicable law gives you more rights despite this limitation, you will not (and have no right to):

a) remove, minimize, block, or modify any notices of Microsoft or its suppliers in the software;

b) use the software in any way that is against the law or to create or propagate malware; or

c) share, publish, distribute, or lease the software (except as permitted in Section 2 above), or provide the software as a stand-alone offering for others to use.

4. DATA. This software may interact with other Microsoft products that collect data that is transmitted to Microsoft. To learn more about how Microsoft processes personal data we collect, please see the Microsoft Privacy Statement at <https://go.microsoft.com/fwlink/?LinkId=248681>.

5. EXPORT RESTRICTIONS. You must comply with all domestic and international export laws and regulations that apply to the software, which include restrictions on destinations, end users, and end use. For further information on export restrictions, visit <https://aka.ms/exporting>.

6. SUPPORT SERVICES. Microsoft is not obligated under this agreement to provide any support services for the software. Any support provided is “as is”, “with all faults”, and without warranty of any kind.

7. UPDATES. Microsoft may periodically update the software. You may obtain updates only from Microsoft or Microsoft-authorized sources. Updates may not include or support all existing software features, services, or peripheral devices.

8. TERMINATION. Without prejudice to any other rights, Microsoft may terminate this agreement if you fail to comply with any of its terms or conditions. In such event, you must destroy all copies of the software and all of its component parts.

9. ENTIRE AGREEMENT. This agreement, and any other terms Microsoft may provide for supplements, updates, or third-party applications, is the entire agreement for the software. To the extent you have entered into a separate agreement with Microsoft relating specifically to the software, the terms in such agreement shall control.

10. APPLICABLE LAW AND PLACE TO RESOLVE DISPUTES. If you acquired the software in the United States or Canada, the laws of the state or province where you live (or, if a business, where your principal place of business is located) govern the interpretation of this agreement, claims for its breach, and all other claims (including consumer protection, unfair competition, and tort claims), regardless of conflict of laws principles. If you acquired the software in any other country, its laws apply. If U.S. federal jurisdiction exists, you and Microsoft consent to exclusive jurisdiction and venue in the federal court in King County, Washington for all disputes heard in court. If not, you and Microsoft consent to exclusive jurisdiction and venue in the Superior Court of King County, Washington for all disputes heard in court.

11. CONSUMER RIGHTS; REGIONAL VARIATIONS. This agreement describes certain legal rights. You may have other rights, including consumer rights, under the laws of your state or country. Separate and apart from your relationship with Microsoft, you may also have rights with respect to the party from which you acquired the software. This agreement does not change those other rights if the laws of your state or country do not permit it to do so. For example, if you acquired the software in one of the below regions, or mandatory country law applies, then the following provisions apply to you:

a) Australia. You have statutory guarantees under the Australian Consumer Law and nothing in this agreement is intended to affect those rights.

b) Germany and Austria.

i. Warranty. The properly licensed software will perform substantially as described in any Microsoft materials that accompany the software. However, Microsoft gives no contractual guarantee in relation to the licensed software.

ii. Limitation of Liability. In case of intentional conduct, gross negligence, claims based on the Product Liability Act, as well as, in case of death or personal or physical injury, Microsoft is liable according to the statutory law.

Subject to the foregoing clause ii., Microsoft will only be liable for slight negligence if Microsoft is in breach of such material contractual obligations, the fulfillment of which facilitate the due performance of this agreement, the breach of which would endanger the purpose of this agreement and the compliance with which a party may constantly trust in (so-called "cardinal obligations"). In other cases of slight negligence, Microsoft will not be liable for slight negligence.

12. DISCLAIMER OF WARRANTY. THE SOFTWARE IS LICENSED "AS IS." YOU BEAR THE RISK OF USING IT. MICROSOFT GIVES NO EXPRESS WARRANTIES, GUARANTEES, OR CONDITIONS. TO THE EXTENT PERMITTED UNDER APPLICABLE LAWS, MICROSOFT EXCLUDES ALL IMPLIED WARRANTIES, INCLUDING MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT.

13. LIMITATION ON AND EXCLUSION OF DAMAGES. IF YOU HAVE ANY BASIS FOR RECOVERING DAMAGES DESPITE THE PRECEDING DISCLAIMER OF WARRANTY, YOU CAN RECOVER FROM MICROSOFT AND ITS SUPPLIERS ONLY DIRECT DAMAGES UP TO U.S. \$5.00. YOU CANNOT RECOVER ANY OTHER DAMAGES, INCLUDING CONSEQUENTIAL, LOST PROFITS, SPECIAL, INDIRECT, OR INCIDENTAL DAMAGES.

This limitation applies to (a) anything related to the software, services, content (including code) on third party Internet sites, or third party applications; and (b) claims for breach of contract, warranty, guarantee, or condition; strict liability, negligence, or other tort; or any other claim; in each case to the extent permitted by applicable law.

It also applies even if Microsoft knew or should have known about the possibility of the damages. The above limitation or exclusion may not apply to you because your state, province, or country may not allow the exclusion or limitation of incidental, consequential, or other damages.

Please note: As this software is distributed in Canada, some of the clauses in this agreement are provided below in French.

Remarque: Ce logiciel étant distribué au Canada, certaines des clauses dans ce contrat sont fournies ci-dessous en français.

EXONÉRATION DE GARANTIE. Le logiciel visé par une licence est offert « tel quel ». Toute utilisation de ce logiciel est à votre seule risque et péril. Microsoft n'accorde aucune autre garantie expresse. Vous pouvez bénéficier de droits additionnels en vertu du droit local sur la protection des consommateurs, que ce contrat ne peut modifier. La ou elles sont permises par le droit locale, les garanties implicites de qualité marchande, d'adéquation à un usage particulier et d'absence de contrefaçon sont exclues.

LIMITATION DES DOMMAGES-INTÉRÊTS ET EXCLUSION DE RESPONSABILITÉ POUR LES DOMMAGES. Vous pouvez obtenir de Microsoft et de ses fournisseurs une indemnisation en cas de dommages directs uniquement à hauteur de 5,00 \$ US. Vous ne pouvez prétendre à aucune indemnisation pour les autres dommages, y compris les dommages spéciaux, indirects ou accessoires et pertes de bénéfices.

Cette limitation concerne:

- tout ce qui est relié au logiciel, aux services ou au contenu (y compris le code) figurant sur des sites Internet tiers ou dans des programmes tiers; et

13.3 If any clause or sentence in this License is held by a court of law to be illegal or unenforceable, the remaining provisions of this License shall not be affected. Any failure by Arm to enforce any of the provisions of this License, unless waived in writing, shall not constitute a waiver of Arm's rights to enforce such provision or any other provision of this License in the future.

13.4 Subject to clause 11.1(b), neither this License or any rights granted to you under it may be assigned, sub-licensed or otherwise transferred by you to any third party without the prior written consent of Arm. An assignment shall be deemed to include, without limitation (i) any transaction or series of transactions whereby a third party acquires, directly or indirectly, the power to control the management and policies of you, whether through the acquisition of voting securities, by contract or otherwise; and (ii) the sale of more than fifty percent (50%) of your assets whether in a single transaction or series of transactions. Notwithstanding the foregoing, Arm may, in its discretion acting reasonably, separately agree to authorise the re-host of a Licensed Seat (for which additional charges may apply).

13.5 Subject to any applicable legal restrictions, including but not limited to those relating to the security of classified information, at Arm's reasonable request, (i) you agree to check your computers for installations of the Arm Tools, copies of License Keys, contents of any license server log files, individual or concurrent usage of Licensed Seats, and any other information requested by Arm relating to Arm Tools installation, usage and License Key management, and, to provide this information to Arm; and (ii) you agree that Arm may instruct appropriately qualified independent auditors to perform such checks by prior appointment during your normal business hours on reasonable notice. In respect of any audit, Arm shall bear the auditors' costs for that audit unless it reveals unlicensed usage, in which case you shall promptly reimburse Arm for all reasonable costs and expenses, including professional fees, relating to such audit. Any information which is disclosed to Arm or such auditors during checking or audit shall be treated as your confidential information and shall only be used by Arm for compliance and enforcement purposes.

13.6 Arm Tools provided under this License are subject to U.S. export control laws, including the U.S. Export Administration Act and its associated regulations, and may be subject to export or import regulations in other countries. You agree to comply fully with all laws and regulations of the United States and other countries ("Export Laws") to ensure that the applicable Arm Tools are not (i) exported, directly or indirectly, in violation of Export Laws, either to any countries that are subject to U.S. export restrictions or to any end user who has been prohibited from participating in the U.S export transactions by any federal agency of the U.S. government; or (ii) intended to be used for any purpose prohibited by Export Laws, including, without limitation, nuclear, chemical, or biological weapons proliferation.

GNU LESSER GENERAL PUBLIC LICENSE Version 3, 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <<http://fsf.org/>>
Everyone is permitted to copy and distribute verbatim copies
of this license document, but changing it is not allowed.

This version of the GNU Lesser General Public License incorporates
the terms and conditions of version 3 of the GNU General Public
License, supplemented by the additional permissions listed below.

0. Additional Definitions.

As used herein, "this License" refers to version 3 of the GNU Lesser
General Public License, and the "GNU GPL" refers to version 3 of the GNU
General Public License.

"The Library" refers to a covered work governed by this License,

other than an Application or a Combined Work as defined below.

An "Application" is any work that makes use of an interface provided by the Library, but which is not otherwise based on the Library. Defining a subclass of a class defined by the Library is deemed a mode of using an interface provided by the Library.

A "Combined Work" is a work produced by combining or linking an Application with the Library. The particular version of the Library with which the Combined Work was made is also called the "Linked Version".

The "Minimal Corresponding Source" for a Combined Work means the Corresponding Source for the Combined Work, excluding any source code for portions of the Combined Work that, considered in isolation, are based on the Application, and not on the Linked Version.

The "Corresponding Application Code" for a Combined Work means the object code and/or source code for the Application, including any data and utility programs needed for reproducing the Combined Work from the Application, but excluding the System Libraries of the Combined Work.

1. Exception to Section 3 of the GNU GPL.

You may convey a covered work under sections 3 and 4 of this License without being bound by section 3 of the GNU GPL.

2. Conveying Modified Versions.

If you modify a copy of the Library, and, in your modifications, a facility refers to a function or data to be supplied by an Application that uses the facility (other than as an argument passed when the facility is invoked), then you may convey a copy of the modified version:

- a) under this License, provided that you make a good faith effort to ensure that, in the event an Application does not supply the function or data, the facility still operates, and performs whatever part of its purpose remains meaningful, or
- b) under the GNU GPL, with none of the additional permissions of this License applicable to that copy.

3. Object Code Incorporating Material from Library Header Files.

The object code form of an Application may incorporate material from a header file that is part of the Library. You may convey such object code under terms of your choice, provided that, if the incorporated material is not limited to numerical parameters, data structure layouts and accessors, or small macros, inline functions and templates (ten or fewer lines in length), you do both of the following:

- a) Give prominent notice with each copy of the object code that the Library is used in it and that the Library and its use are covered by this License.

b) Accompany the object code with a copy of the GNU GPL and this license document.

4. Combined Works.

You may convey a Combined Work under terms of your choice that, taken together, effectively do not restrict modification of the portions of the Library contained in the Combined Work and reverse engineering for debugging such modifications, if you also do each of the following:

a) Give prominent notice with each copy of the Combined Work that the Library is used in it and that the Library and its use are covered by this License.

b) Accompany the Combined Work with a copy of the GNU GPL and this license document.

c) For a Combined Work that displays copyright notices during execution, include the copyright notice for the Library among these notices, as well as a reference directing the user to the copies of the GNU GPL and this license document.

d) Do one of the following:

0) Convey the Minimal Corresponding Source under the terms of this License, and the Corresponding Application Code in a form suitable for, and under terms that permit, the user to recombine or relink the Application with a modified version of the Linked Version to produce a modified Combined Work, in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.

1) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (a) uses at run time a copy of the Library already present on the user's computer system, and (b) will operate properly with a modified version of the Library that is interface-compatible with the Linked Version.

e) Provide Installation Information, but only if you would otherwise be required to provide such information under section 6 of the GNU GPL, and only to the extent that such information is necessary to install and execute a modified version of the Combined Work produced by recombining or relinking the Application with a modified version of the Linked Version. (If you use option 4d0, the Installation Information must accompany the Minimal Corresponding Source and Corresponding Application Code. If you use option 4d1, you must provide the Installation Information in the manner specified by section 6 of the GNU GPL for conveying Corresponding Source.)

5. Combined Libraries.

You may place library facilities that are a work based on the Library side by side in a single library together with other library

facilities that are not Applications and are not covered by this License, and convey such a combined library under terms of your choice, if you do both of the following:

- a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities, conveyed under the terms of this License.
- b) Give prominent notice with the combined library that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

6. Revised Versions of the GNU Lesser General Public License.

The Free Software Foundation may publish revised and/or new versions of the GNU Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library as you received it specifies that a certain numbered version of the GNU Lesser General Public License "or any later version" applies to it, you have the option of following the terms and conditions either of that published version or of any later version published by the Free Software Foundation. If the Library as you received it does not specify a version number of the GNU Lesser General Public License, you may choose any version of the GNU Lesser General Public License ever published by the Free Software Foundation.

If the Library as you received it specifies that a proxy can decide whether future versions of the GNU Lesser General Public License shall apply, that proxy's public statement of acceptance of any version is permanent authorization for you to choose that version for the Library.

SPECIAL EXCEPTION GRANTED BY COPYRIGHT HOLDERS

As a special exception, copyright holders give you permission to link this library with independent modules to produce an executable, regardless of the license terms of these independent modules, and to copy and distribute the resulting executable under terms of your choice, provided that you also meet, for each linked independent module, the terms and conditions of the license of that module. An independent module is a module which is not derived from or based on this library. If you modify this library, you must extend this exception to your version of the library.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.

51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too. When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you

distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

one line to give the program's name and an idea of what it does.

Copyright (C) yyyy name of author

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA. Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author

Gnomovision comes with ABSOLUTELY NO WARRANTY; for details

type `show w'. This is free software, and you are welcome

to redistribute it under certain conditions; type `show c'

for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than `show w' and `show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program `Gnomovision'

(which makes passes at compilers) written by James Hacker.

signature of Ty Coon, 1 April 1989

Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the [GNU Lesser General Public License](#) instead of this License.
